

In 2007, grants and contributions supported the vital work of Funders Concerned About AIDS.

FCAA's work is made possible by foundation and corporate grants as well as personal contributions. This support speaks to the importance and the potential of the philanthropic response in the fight against HIV/AIDS and our collective role in this effort. We thank the following institutions and individuals for their generous support during FCAA's twentieth anniversary year.

\$100,000 and above
