

In 2010, foundation and corporate grants and membership contributions supported the vital work of Funders Concerned About AIDS.

The recent economic downturn has threatened continued progress in the development of resources vital to the fight against HIV/AIDS both domestically and abroad. Additionally, public awareness on HIV related issues has dropped precipitously while new infections continue unabated. For these reasons, FCAA introduced a new membership structure in 2010 to ensure that its critical work can continue until there is an end to the pandemic. Our new structure (see page 2) provides a range of support which include “**member**”, the level of support for base membership; “**sustaining**”, the level of support expected from Board members; and “**leadership**”, the level of support from those organizations which drive our work forward through grant support above and beyond “membership” support.

We thank the following institutions and individuals for their generous support during 2010.

Membership Key:

L: Leadership

S: Sustaining

No code: Member

(See page 2 for the membership structure)

Foundation & Corporate Support

\$100,000 and above

The Ford Foundation **(S)**

The New Venture Fund **(S)**

\$25,000 - \$99,000
