
NATIONAL HIV/AIDS STRATEGY FOR THE UNITED STATES

JULY 2010

Our country is at a crossroads. Right now, we are experiencing a domestic epidemic that demands a renewed commitment, increased public attention, and leadership. Early in my Administration, I tasked the Office of National AIDS Policy with developing a *National HIV/AIDS Strategy* with three primary goals: 1) reducing the number of people who become infected with HIV; 2) increasing access to care and improving health outcomes for people living with HIV; and, 3) reducing HIV-related health disparities.

Feedback loop: An approach to monitor, implement & achieve the NHAS

Challenges & Opportunities

- ✓ Integrated “cascade” research & programs
- ✓ Community & public health & clinic initiatives
- ✓ Improving engagement in setting of uncertainty re: capacity & workforce
- ✓ ACA & RW CARE Act
- ✓ Deep South

Thank you!
