Logistics

- Please help us by muting your own phones (*6)
- There will be a Q&A at the end of the presentations. If you have a question in the interim, please:
  - Type it in the chat feature on your screen
  - Tweet them to @FCAA
  - Email them to sarah@fcaaids.org
- The webinar will be recorded
- This goal of this discussion is to educate private HIV-related grantmakers on the result of the recent election and potential role for the philanthropic sector moving forward. As such, questions on this topic will be prioritized in the Q&A.
Agenda

- Welcome & Introductions
  - John Barnes, FCAA

- Election Analysis
  - Drew Littman, BHFS
  - Jen Olson, PMJ

- Community Responses
  - Matthew Rose, NMAC
  - Jacqueline Ayers, Planned Parenthood Federation of America

- Financing & Context
  - Chris Collins, Friends of the Global Fight
  - Cat Gironda, FCAA

- Q&A

- Anti (51)

**House**
- Pro (224)
- Leans Pro (7)
- Leans Anti (3)
- Anti (198)
- Uncalled (3)*

*Uncalled races: CA-21, NC-09, & NY-27
Title X, Nation’s Leading Family Planning Program

Title X provides contraception, well-woman exams, counseling, STI testing & treatment, & cancer screenings

4 million people served annually

Over 4 million STI & HIV tests provided

65% of patients have incomes under 100% FPL

A significant proportion of Title X patients identify as members of racial or ethnic communities that often face significant health challenges due to systemic inequities, including Black and African Americans (21%), and Hispanic and Latino patients (32%).
The Title X Domestic Gag Rule: Widely Unpopular and Broad Opposition

Proposed Rule

- Makes it impossible for patients to get preventive care at Planned Parenthood
- Providers are prevented from referring patients for abortion
- Removes guarantee that patients receive full and accurate information from their providers
- Removes requirement that contraception be medically approved, and that providers ensure access to full range of birth control

- **493,497** supporter comments were submitted opposing gag rule
- Every major medical association denounced the gag rule, [American Medical Association](http://www.ama-assn.org), [American Nurses Association](http://www.ana.org), [National Association of Community Health Centers](http://www.nachc.org)
- Over 10,000 individual providers signed (& counting!) have signed our [provider pledge](http://www.plannedparenthood.org) rejecting the political interference in the provider-patient relationship posed by the gag rule.
The Global Gag Rule: Undermining Global Health and Human Rights

- The global gag rule bans foreign organizations who take U.S. global health funding from engaging in:
  - Abortion services
  - Abortion information
  - Abortion referral
  - Abortion advocacy

- For the first time, this policy has been applied to PEPFAR and programs that run through its implementing agencies

“If you close them [clinics], you are not closing only one service. It’s the package, including HIV”
- Santos Simione, Executive Director, AMODEFA
FINANCING & CONTEXT

• Chris Collins, Friends of the Global Fight
• Cat Gironda, FCAA
Philanthropic Support to Address HIV/AIDS in 2017

Funders Concerned About AIDS
2017 Funding Totals

Philanthropic Funding for HIV/AIDS in 2017 totaled $638 million

5% decrease ($37 million) from 2016 and lowest level since 2014

Philanthropic funding represents only 2% of Global Resources for HIV/AIDS
Notable Changes in 2017

- Middle income countries saw a **21% decrease** overall.
- US saw a new high of $186 million with a **67% increase to US South**.
- **110% increase** to Transgender pops, 35% increase to MSM, funding for African American and Latinx pops in US nearly double.
Overall, funding for Advocacy saw a $9 mil decrease (7%) from 2016, but remained 18% of total funding.

34% of Advocacy funding was for LGBT populations.

36% of Advocacy funding went to United States, with almost half of that going to US South.
