

## MEMBERSHIP FORM

Since 1987, FCAA has monitored and informed the philanthropic response to AIDS – conducting research, analyzing trends, facilitating best practice sharing and fostering collaboration. While FCAA will continue to gratefully accept donations of any amount, we have developed membership guidelines based on levels of giving to HIV-related issues. The guidelines also provide a range of support that include “base membership”; “sustaining”, the level of support expected from Board members; and, “leadership”, the level of support from those organizations which drive our work forward through grant support above and beyond “membership” support. FCAA has also added new levels for “intermediary funders” and “resource tracking affiliate membership” level. The latter is to recognize the importance of funding organizations that submit data to FCAA’s annual resource tracking project but are not member-supporters. This level of membership provides the organization with access to the new Membership and Grants Directory. **Learn more about the benefits of membership at: <https://www.fcaaid.org/community/become-a-member/>**
