

# FUNDERS CONCERNED ABOUT AIDS MEMBERSHIP GUIDE

---

ESSENTIAL RESOURCES FOR  
HIV-INFORMED GRANTMAKERS

# WELCOME

---

Welcome to Funders Concerned About AIDS (FCAA)! We work to inform, connect, and support HIV-informed funders. Having FCAA's tools at their fingertips helps ensure that the resources grantmakers mobilize have the greatest impact.

More than [45 philanthropic foundations and charities](#) currently support FCAA as contributors. In 2020, these organizations collectively accounted for more than half (57%) of total HIV-related philanthropy.

As a global network of funders, FCAA welcomes diverse perspectives, facilitates open communication and debate, and promotes racial and gender equity and human rights.

## WHAT IT MEANS TO BE AN HIV-INFORMED FUNDER

---

The COVID-19 pandemic made clear that the experience of HIV-informed grantmakers is essential. The world needs philanthropic funders that:

- Understand emergency responses to new epidemics and sustained efforts to bring epidemics to an end;
- Fund across intersecting issues of health, rights, community empowerment, and government funding, accountability, and action;
- Follow evidence, including both “standard” scientific evidence and community-generated evidence, and are willing to challenge stereotypes, stigma, and discrimination.

# OUR VISION

---

FCAA envisions a world without AIDS, facilitated by philanthropy for:

Empowerment, equity and justice for marginalized and neglected communities

Innovation in health services and other programming to promote health, human rights and social and economic opportunity

Government responsiveness and accountability to people's needs

## TAKE FULL ADVANTAGE OF FCAA'S MEMBER-ONLY OPPORTUNITIES!

---

All staff of FCAA member organizations have a comprehensive toolkit at their disposal, helping to make the most informed funding decisions. Please be sure to share this with everyone at your organization as membership includes access to critical information, resources, and networking opportunities they won't want to miss:

- Receive discounted rates and the opportunity for early registration to our annual Summit
- Visit our new Membership & Grants Directory
- Participate in funder-only webinars and briefings
- Request technical assistance, contacts/introductions, or data insights from FCAA staff
- Discounted access to a number of products, subscriptions, and services that benefit the philanthropic sector

## INFORM

---

FCAA tracks, interprets, and shares information about HIV-informed funding, policies, and programs. Learn about trends and best practices in the HIV-informed funding landscape through FCAA's:

### Resource Tracking Reports

FCAA's signature report, [\*Philanthropic Support to Address HIV/AIDS\*](#), is the most comprehensive study of its kind. Our latest report captures data on more than 5,500 grants, awarded by 264 foundations in 15 countries, and identifies gaps, trends, and opportunities in HIV-related philanthropy.

### Data Spotlights

FCAA develops [data visualizations](#) highlighting areas in need of continued funding and programming in the global response to the epidemic. Each of these data spotlights focus on funding of key issues, geographies, and populations.

### Research Initiatives

FCAA regularly produces [briefings, reports, analyses](#) of challenges and best practices on issues of interest to HIV-informed funders.

### Communication Platforms

FCAA produces original content through its [blog](#) and through philanthropic, global health, mainstream, and social media. FCAA collaborates, where appropriate, with co-authors and a diversity of funders to highlight a range of perspectives.

## CONNECT

---

FCAA convenes regular gatherings and facilitates collaboration, sharing of information, engaging in dialogue, and reinforcing relationships for effective grantmaking.

### Attending a Networking Event or Webinar

We hold many events, both large scale meetings and more intimate discussions, throughout the year. For example, at the annual [FCAA Summit](#), we mobilize members to share good practices and strategies to increase the amount and impact of HIV-informed philanthropy, while also providing space for networking and community building. At our annual [Spring Funder Forum](#), we gather a diverse group of stakeholders to assess the landscape and identify concrete action steps to ensure continued progress in funding the HIV fight. FCAA also organizes regular [FCAA Connect webinar](#) discussions among members about developments and challenges in global health and human rights.

### Joining a Working Group

FCAA [working groups](#) are member-driven platforms that provide learning and networking opportunities among funders looking to mobilize resources and bring heightened awareness to specific issues in HIV-related philanthropy.

## SUPPORT

FCAA promotes and facilitates HIV-informed funding initiatives, partnerships and tools to drive toward solutions and help advocate for change. FCAA will also support and amplify the voice of funders in advocacy, especially when HIV-informed funders are leaders on issues of racial and gender equality and justice; innovations in health or pressing issues of human rights; and needs for government responsiveness, accountability, and action.

### FCAA Advocacy Network

The FCAA Advocacy Network monitors the rapidly evolving political landscape in the US and other leading international donor countries. It also produces regular updates for the FCAA list-serv and social media followers.

### Racial Justice Principles

In response to the clear gap between resources, as well as calls for philanthropic anti-racist action, the FCAA Racial Justice Working Group developed the [Racial Justice Principles in HIV Philanthropy Guiding Principles](#) to help change how funders approach philanthropy.

## MEMBERSHIP & GRANTS DIRECTORY

---

Our new [FCAA Membership & Grants Directory](#) is a concrete tool to help members actively engage in each aspect of these three core strategies.

### Membership Directory

Add your organization to our centralized database of members and gain new levels of access to our annual resource tracking data.

### Grants Directory

Use these tools to inform and support your grantmaking and help identify new opportunities to connect and collaborate with your peers!

# GET STARTED WITH FCAA

---

We want to hear about your work and collaborate with you!

**Aimé Césaire  
Atchom**  
Research & Admin  
Assistant  
[aime@fcaaid.org](mailto:aime@fcaaid.org)

History shows that efforts against HIV and AIDS will be needed for many decades to come. HIV-informed funding and activism must be sustained to end the epidemic and to build investments in health, rights, and justice to remove the conditions that still fuel preventable epidemics today.

Now is the time to protect the gains, push to end epidemics, and keep alive the promise of a better world. Let us know how FCAA can support your organization in pursuing this collective mission.
