

Case Study: Ending the HIV Epidemic in Cook County, Illinois

This resource provides an overview of the HIV epidemic in Cook County, IL – the most populous county in the state and the second most populous county in the U.S. – and the amount of HIV-related philanthropic funding received by organizations there in 2020. It complements a data partnership between Funders Concerned About AIDS (FCAA) and AIDS Vu, which offers a glimpse at what the HIV epidemic looks like in the 57 jurisdictions prioritized in the Ending the HIV Epidemic in the U.S. Initiative (EHE).

To learn more about the work behind these numbers, please read this feature story with [AIDS Foundation Chicago](#).

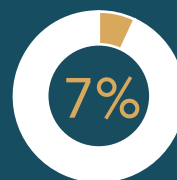

HIV Philanthropic Funding

In 2020, almost \$60 million (19% of HIV-related philanthropy to the U.S.) reached the 57 Ending the HIV Epidemic jurisdictions. Just 7% of that funding reached organizations based in Cook County.

In 2020, organizations in Cook County received

\$4,252,608

in HIV-related philanthropy

of total HIV-related philanthropy to the EHE Jurisdictions
