## Cuyahoga County, Ohio

Cuyahoga County – which includes the city of Cleveland – was home 4,920 people living with HIV (PLWH) in 2020 and is one of three counties in Ohio prioritized in the EHE.

**4,920**  
PLWH  
in 2020

A rate of  
**469**  
PLWH per  
100,000 people

**185**  
people tested  
positive for  
HIV in 2020

**2X**  
the rate of  
the state of  
Ohio

Black residents made up more than two-thirds of new HIV infections in Cuyahoga County despite representing less than 1/3 of the county's overall population.

## Ending the HIV Epidemic

FCAA has partnered with AIDSvu to provide a snapshot for local philanthropic funders on what the epidemic looks like in their counties, who it's impacting, and how philanthropy is – or is not – responding. Visit the resources linked below to learn more.
